

I Had This Dream

92bpm

Intro

Verse 1

We polluted, we contaminated, we spilled our nuclear waste
Are we deaf? Are we blind? In a demented state of mind?
To mess around with everyone's fate

Bridge 1

But here in my dreams I see a clear blue sky
Sunflowers in the fields and swallows flying by

Verse 2

Acid rain is falling from an ozoneless sky
On a rain forest lacking more and more trees
Hey! We reached the limit! It's time to admit it
That we are killing the land and we are killing the seas

Bridge 2

As I toss and turn in bed, an image in my mind
Criminals rob innocents, kick a poor man 'til he's blind, o save him!
There's drug, there's XTC, it's shit from coast to coast
Where are our values now, now we do need them most?

Chorus

I had this dream, I had this dream
The world was blind or so it seemed
I saw a solution here in my dream
But nothing's gonna change until we try

Verse 3

The world is dying, the oceans are crying
And breathing's just a matter of time
Let's get around and make a change
We really got to make that change
And if we're lucky there might be enough time

Bridge 3

Last night, in my sleep, I dreamt of paradise
We still can save this world, so please take my advice, o Lord
Let us be careful of what Mother Nature gives
We must have more respect for all the things that live!

Chorus x2

G D (F)
G D/F (F)
G D (F)
E^b (Gm) F
